C19 PRODUCTS

TRUMASK® Face Mask

Specific tests conducted show that the trumask® filter has a bacterial filtration efficiency of over 95% and an NaCl particle filtration efficiency of over 95%. This mask comes in four colours for adults and two designs for children.

Wear a Trumask® to help protect you and those around you. Built to use a Replaceable Nano filter System, these masks are designed with your comfort and safety in mind.

- Our masks are both washable and re-usable
- Inner: 100% cotton. Outer: 94.5% polyester fibre, 5.5% elastane
- Adult mask: 24 cm x 15 cm. Child mask: 19 cm x 12 cm
- Each mask is shipped with one filter included

Care

- Remove the filter and wash the mask before wearing the face mask for the first time.
- Always remove the filter before each wash.
- We recommend washing it gently in warm water with mild soap.

Filters

- Patented breathable three-layer fused nanofibre technology with 95% filter efficiency.
- First anti-dust and electrostatic melt-blown cloth layer.
- Second nanofibre layer (75 nanometres) to increase filtration while ensuring breathability.
- Third hypoallergenic non-woven fabric layer.
- Each filter can be used for up to 12 hours (four times longer than a surgical mask).
- Keep the filters in a clean, dry place.
- Do not wash or clean the filter. Do not wipe the filter.

NB. These face masks are not designated as personal protective equipment (PPE)

OEKO-TEX® Standard 100 certified Fabric Mask

When the need arises to step outside – whether you're on the job as a non-medical essential employee or running necessary errands – wearing a face mask can be a thoughtful and considerate choice.

Design your
own mask on our
blank canvas.

Charges apply.

These face masks intended for personal use in non-medical settings in the hope of containing the spread of the virus. The product is made from 100% polyester and is OEKO-TEX® Standard 100 Class I certified, therefore it is suitable for prolonged contact with the skin. It is machine washable at up to 40°C and is sterilised with an ozone treatment before packaging.

These are not medical devices or personal protective equipment (PPE). We do not recommend them as a defence against the person who is wearing it from contracting a virus.

Face Mask Specifications:

- Lightweight 200gsm Single Layer Fabric
- Designed for personal use only
- OEKO-TEX® Standard 100 certified
- Fabric mask with elastic bands
- Machine-washable polyester
- One size fits most
- Supplied in sealed bags of 5

Face Mask Tips: How to wear & wash your masks

We strongly recommend you follow the below tips, which outline how to clean your face masks.

How to wash a face mask:

- Before you use your mask for the first time, wash your mask and your face – and then wash your mask after every use.
- We recommend washing in hot water (at 40 degrees Celsius) with regular detergent.
- Dry your mask immediately, using your dryer's tumble dry low (gentle) setting. Make sure your mask is completely dry before you use it.
- Change your mask regularly to prevent condensation build-up.
